## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election without traverse of claims 1-7 and 18-20 in Paper No. 8 is acknowledged.
2. Claims 8-17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 8.

### *Priority*

3. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### *Claim Rejections - 35 USC § 102*

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-4, 6, 7, 18 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Kobayashi (US 6,050,912).

Kobayashi discloses a transmission comprising: a thrust ratio between the thrust of the driving pulley and the thrust of the following pulley is determined (col. 9 lines 14-18), the gradient of the thrust ratio is periodically determined (col. 9 lines 36-38), the state of change of the thrust ratio is determined while the pulley thrust is varied according to a predetermined cycle (col. 9 lines 36-39) by measuring a hydraulic

pressure (col. 9 lines 24-29), the state of change of the thrust ratio is determined while a driving torque is varied according to a predetermined cycle (col. 9 lines 14-48) and thrust of a least one of the driving pulley and the following pulley is controlled based on a state of change of the thrust ratio (col. 10 lines 19-26).

***Allowable Subject Matter***

6. Claims 5 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
